

Girl's Rite: Testimonials

"Girl's Rite has helped our special needs daughter feel more equal with her peers. It has built her confidence to want to try new things. She has also participated in two talent shows on her own at a regional REACH youth conference she went to with Girl's Rite."

"I have a lot of fun in Girl's Rite and can express myself. We take field trips and go hiking and camping!"

"To whom it may concern: When Girl's Rite went to REACH it was like a once in a lifetime opportunity. 'Like' because I hope to go next year. I also made a friend who I am going to keep in contact with."

"Girl's Rite has been such a great stabilizing influence in my child's life. It is not just another after school program, but provides an intimate atmosphere where my child feels safe and heard. It has become a part of who she is and what she does. She has learned that she can rely on its existence as part of her community structure and has found it one of the only programs she feels truly comfortable participating in. The outings and events are a great structure to the program—and I wouldn't want them to be any different, but they are really only the icing on the cake. The value in the Girl's Rite program lies in the connections the girls make with healthy/safe community role models and the lessons learned from the wonderful array of activities and experiences they have."

"It's kind of nice to just go somewhere other than my house after school. We do many fun things in Girl's Rite such as sewing, hiking, going to the vet and even going to see the horses at the college. Although we do serious things, we do fun things too. We do things like board games, hanging out, eating, playing games, and more! Girl's Rite gives me a chance to...be myself, solve my problems, and have fun!"
